Subject: MTG REQUEST: EPA-Portland District - Portland Harbor PRGs and Dredging (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

All:

Please participate in the Doodle Poll to arrange meeting between EPA Cleanup Staff and Portland District Staff. In coordinating with Sean Sheldrake, it sounds like the week of April 18 works best for you. Doodle poll link: <http://doodle.com/poll/h4kf6c8vgw39knaf>

PURPOSE: Portland District would like to discuss the Portland Harbor preliminary remedial goals, impacts to civil works and Regulatory-permitted dredging, and collaborate on a scientifically defensible approach which allows for the aquatic placement of suitable dredged material.

A face-to-face meeting is preferred; however, we can arrange a webmeeting if it will increase participation. Thank you, and have a great week!

V/r,
James McMillan
Lead - Portland Sediment Evaluation Team
Portland District - U.S. Army Corps of Engineers
Hydraulics & Hydrology Branch
Sediment Quality Team (CENWP-EC-HR)
